

Almatis at IREFCON 2023 Indian Refractories Big Leap towards new Opportunities and Challenges

The much awaited International Refractories Congress is back.

Almatis is participating at IREFCON this week; meet us at booth no 27, 34 & 35 to learn more about our new fully integrated tabular alumina plant in India. This fully integrated plant is the first of its kind in India, built to supply the local market and fulfill the needs our of customers.

At this year's IREFCON – the 14th India International Refractories Congress in Kolkata, India, held from November 16-18 – Almatis CEO, Anil Sönmez, will give the opening speech at the welcome dinner.

During the two-and-a-half day Congress, Almatis technical experts, Dr. Andus Buhr and Shankha Chatterjee will give four technical papers.

- Suitability of chrome-free magnesia- spinel refractory for RH application
- Development performance alumina-spinel of high precast pre-fired refractory for tundish application
- The value of additives in silica fume containing refractory castables
- Formation of hexa-aluminate solid solution phases in spinel containing castables – Mineralogical investigations in the system CaO - Al₂O₃ – MgO

Visit Almatis at our booth to learn about our commitment to the Indian refractory market, or meet us during our technical presentations to learn about our newest creative and innovative ideas.
