-325 Mesh Ground Calcined Aluminas

Almatis -325 Mesh ground calcined aluminas meet the demanding requirements for refractory shapes and castables, electrical insulators, and surface finishing applications. With additional grinding they meet the demanding requirements for technical and electronic ceramics. These Almatis products are dry milled in continuous feed ball mills using ceramic media. The grinding process is closely monitored to achieve the product characteristics required by their intended applications. These products are ground from Almatis' normal soda and low soda calcined aluminas.

Standard Packaging

- 1. 50 lb paper bags 70 per pallet
- 2. 25 kg paper bags 40 per pallet
- 3. 2500 lb super sads 1 per pallet
- 4. 1 mtsupersads-1 perpallet
- 5. Bulk rail car
- 6. Bulktruck
- 7. Other options available with upcharge

All data is based upon Almatis standard test methods.

All test methods are available upon request.

The typical properties are based upon the actual averages from production data.

The Min/Max data represents Almatis standard product specification data for these products.
